ABOUT ADMITOK

Our core competence is Student counselling, International student admission, & expertise in visa documentation. We process the highest number of cases. These case studies have given us the experience & expertise to handle any type of case. What our clients are comfortable with is the trust our brand exudes and the transparency of our process which is backed by a proper legal agreement including a clear refund policy.

Clients enjoy a good rapport with our competent, knowledgeable & experienced consultants who offer high quality & life changing career counseling for free. Whether you are a student looking for an overseas career, a corporate or a university, you can be assured that you are talking to the country's best.

CEO'S Message

Being one of the fastest growing overseas career company did not happen by chance but by a single minded dedication to our purpose.

A purpose of helping people pursue opportunities beyond the boundaries they are born in. We strongly believe that an individual must aim to achieve his or her full potential and must be given a chance on the basis of merit and with no other prejudice.

We strongly believe that going abroad changes a person's fortune and outlook of life for the better. The impact spills over to his family, to his community, his industry and country. A single man abroad not only repatriates money but also builds networks, businesses, exchanges ideas and becomes a global citizen. Our core competency lies in being a career counselor where we aim to inspire, motivate, counsel, convince and persuade. While enjoying this position we are ever grateful to our families, parents, teachers and communities who helped us reach here.

Come, let's build a borderless world together.
